GIS Platforms	
Operating Platforms	Windows 95, 98, NT4.0, 2000, ME, XP

Monarch is an easy-to-use data access and analysis tool that transforms report output files into live data on your PC. With Monarch, you no longer have to flip through thick printed reports and rekey data into a spreadsheet or other application for analysis. Load a report file into Monarch and out comes data, which you can view, sort, filter, summarize, graph and export to other desktop applications. Monarch is available in two versions, Monarch and Monarch Pro, and is the world's leading report mining and analysis tool.

Product Name	***MrSID***
Manufacturer	LizardTech, Inc.
Area	Other - Geospatial Imaging
Contact	LizardTech, Inc.
Address	1008 Western Avenue, Second Floor Seattle, WA 98104
Phone	206-652-5211
Fax	206-652-0880
Email Address	info@lizardtech.com
Web Site	http://www.lizardtech.com
GIS Platforms	Multiple
Operating Platforms	Windows 95/98 or UNIX workstations

·Raster image environment and file format that enables portability of massive images. Reduces high-resolution images to less than 5% of their original size without image degradation.
·Able to join multiple image tiles into a single seamless image with zooming and panning capability while keeping georeferencing data intact.
·Compatible with multiple GIS applications including: ESRI, Integraph, ERDAS, MapInfo, Bentley, and Autodesk. Also compatible with web browsers for internet viewing.
·Allows user to control compression ratios, image quality, and metadata content.
·High speed image display via pixels-on-demand feature.

Product Name	***Oracle Data Mining Suite (Oracle Darwin)***
Manufacturer	Oracle
Area	Crime Mapping/Analysis

Operating Platforms	Windows 95/98/NT

Oracle Data Mining Suite (Oracle Darwin) is powerful enterprise data mining software that finds meaningful patterns hidden within corporate and e-business data — patterns that can provide the insight needed for highly personalized and profitable customer relationships. Oracle Data Mining Suite enables 1:1 marketing by segmenting customers and predicting their behavior.

Product Name	***OrionMagic***
Manufacturer	Orion Scientific Systems
Area	Crime Mapping/Analysis
Contact	orion@orionsci.com
Address	8400 Westpark Drive Suite 200 McLean, VA 22102
Phone	703.917.6540
Fax	703.917.0394
Email Address	
Web Site	www.orionsci.com
GIS Platforms	
Operating Platforms	Windows 3.1 or greater

ORION Scientific Systems, which develops software for the intelligence and law enforcement communities, has created a new analytic tool, ORIONMagic™. ORIONMagic, is a Windows-based law enforcement application, designed to search through gigabytes of fragmentary investigative material, to find the one or two "smoking guns." ORIONMagic enables the investigator to organize multiple search parameters into a matrix format resembling a spreadsheet, and perform massively parallel searches from a single command.
