Phone	720-348-1090
Fax	
Email Address	
Web Site	www.bairsoftware.com
GIS Platforms	Stand-alone
Operating Platforms	

Trend Tracker v1.0 is the tactical analysis software utility designed to record and analyze a jurisdiction's trends, series, and patterns, and oversee special study projects for directed patrol activities or special events. Trend Tracker can record an unlimited number of cases allowing the tactical crime analyst to simultaneously watch over every known or suspected series in your area. Trend Tracker includes an administrative analysis module that allows managers to track the actions of individual analysts and investigators, oversee timelines of series activity, determine how trends are being detected, and how they are being resolved.

Product Name	***Vertical Mapper***
Manufacturer	Northwood Geoscience
Area	Crime Mapping/Analysis
Contact	MapInfo Corporation
Address	One Global View Troy, NY 12180-83979
Phone	800-531-9399
Fax	518-285-6070
Email Address	data@mapinfo.com
Web Site	http://www.mapinfo.com
GIS Platforms	MapInfo
Operating Platforms	Windows 95/98/NT

·Contour modeling and display software that enables the user to conduct geographic analyses using raster formatting to create 3D graphic images.
·Allows the user to compute Theissen polygons and grid densities as well as to aggregate statistical data.
·Allows the user to drape vector, raster or text onto the 3D surface for additional analysis.

Product Name	***Vision Geo***
Manufacturer	Vision Software, Inc.
Area	Crime Mapping/Analysis
Contact	Marty Hollingsworth
Address	5601 Barbados Boulevard Castle Hayne, NC 28429
Phone	800-882-2108 Ext. 51
Fax	910-602-6190
Email Address	martyh@vision911.com
Web Site	http://www.vision911.com/
GIS Platforms	ArcView or MapInfo
Operating Platforms	Windows NT

·For use with Vision Software Public Safety Suite: Computer-Aided Dispatch (CAD), Record Management System (RMS), and MOBILE.
·Allows the user to define mapping attributes, boundaries and zones for integration with CAD data for resource management and control.
·Supports GPS/AVL (including cellular) based on literal XY coordinates.
·Provides data display analysis including incident point maps, trend analysis, and SQL queries.

Product Name	***VMS 200 Video Mapping System***
Manufacturer	Red Hen Systems, Inc.
Area	Crime Mapping/Analysis
Contact	Red Hen Systems, Inc.
Address	2310 E. Prospect Road, Suite A Fort Collins, CO 80525
Phone	970-493-3952
Fax	970-493-3938
Email Address	info@redhensystems.com
Web Site	http://www.redhensystems.com
GIS Platforms	MediaMapper
Operating Platforms	Windows 95/98/00/NT

·A spatial multimedia tool that works with compatible video cameras or the Kodak DC290 Zoom Digital Camera to record GPS location data with pictures.
·Once the images are recorded, VMS 200 sends the data to the computer, working with MediaMapper to generate a map automatically from the GPS data.

Product Name	***Watson Mapping***
Manufacturer	Harlequin Incorporated
Area	Crime Mapping/Analysis
Contact	MaryAnne Carpenter
Address	One Cambridge Center Cambridge, MA 02142
Phone	617-374-2400
Fax	617-252-6505
Email Address	web@harlequin.com
Web Site	www.harlequin.com/products/hints/watson
GIS Platforms	ArcView/MapInfo/PAFEC
Operating Platforms	Windows 95/98/NT

·Module of Watson and Watson Pro intelligence analysis software.
·Integrates geographic analysis with complex intelligence and crime analysis.
·Allows for identification of trends, patterns, clusters, and series of events, planning crime prevention strategies, and resource deployment.

Product Name	***Web-Data Visualization System***
Manufacturer	Indus Corporation
Area	Internet Mapping
Contact	Mike Mullen
Address	1953 Gallows Road, Suite 300 Vienna, VA 22182
Phone	703-506-6700
Fax	703-506-6776
Email Address	mmullen@induscorp.com
Web Site	http://www.induscorp.com
GIS Platforms	Any ESRI product
Operating Platforms	Windows 95/98/NT or UNIX

·Allows user visualization and production of data through the Internet using Web browser interface.
·Provides framework for full integration of geographic and tabular data from multiple data sources.
·Ability to develop complex spatial and tabular queries.
·Enables data sharing and communication within and between organizations through any standard Web browser.
·Supports multiple databases including: Oracle, SQL Server, Access, dBase, Excel.
·Supports the following Web browsers: Netscape Navigator, and Internet Explorer.
