It is estimated that there are more than 6,000,000 surveillance cameras operating in the UK

It was expanded by public reaction to:

- **1993 Jamie Bulger Abduction/Murder showed potential for CCTV**
- **1995 Home Office Competition. Further rounds in '96, '97, '98**
- **Total Capital Investment £528million which includes £198million in Government Funding**

**What has caused this sustained
growth in the spread of CCTV
throughout the UK**

**Most of the larger
systems are Community
Partnership Schemes with
strict rules and Legislation
to ensure they are not
misused**

**They are not in the main
Government or Police Schemes
although the Police tend to be the
main Stakeholders**

They are generally set up by Crime Reduction Partnerships after:-

- **Extensive Research & Consultation**
- **Established Code of Practice**
- **Police Support**
- **Arrangements to protect Privacy**
- **Arrangements to protect Data**

Privacy Zone

Privacy Zone

- **Compliance with Legislation**
- **Signage – Not Covert**
- **Regular Evaluation and Reports to the Community**

but mainly

- **They are Pro-actively Monitored**

The UK Market for major systems is made up of the following:-

- **Local Authorities**
- **Housing Depts & Associations**
- **Transit Authorities**
- **Health Authorities**
- **Educational Establishments**

Local Authority

Housing

Transit

Metro Control Centre

Hospitals

UNIVERSITIES

SCHOOLS
